ARTERY OF THE COMMITTER.

We, the undersigned, clitzens of this City, having acted as a Committee on the trial of one of the Challenge Safes manufactured by Hornbach & Wagner, of this city, yesterday afternoon, certify by this, that said Safe was placed on four small brick layers, twenty inches from the ground, surrounded by a circular, wall about three feet distant from the Safe, and reaching more than a foct above it, and covered from all sides as well as from top and bottom by weed, thus filling the whole space between its Safe and the wall and some way upwards, with just four cords of wood. We having inspected the books, napare and bank bills that were placed in the Safe, if the wasset to the pile of wood, and owing to a quantity of turpentine which had been poured on the wood-pile, the whole was in a short time all in a blaze. The flarres then continued raying for an hour and a half around, above and below the Safe, insting of a solid brass mob of an inch and seven-eightha in challengs, and bringing the Safe to a red-hot heat, when we, the Committee, doubleding thin a fully subjected to in case of condagration, concluded to let an entime play out. The safe upday brought in safe is minuted and seven-eighthat in this mass, and bringing the Safe to a red-hot heat, when we, the Committee, doubleding thin a fully subjected to in case of condagration, concluded to let an entime play out. The way updayly brought in safe acting that the fatter some little time was affected, when in our presence the Safe was opened, and to the astronishment of all persons present, the articles deposited in ide, including 18 face was opened, and to the astronishment of all persons present, the articles deposited invites, including 18 face was opened, and to the astronishment of all persons present, the articles deposited invites, including 18 face was opened, and to the astronishment of a safe-ganar for their books, papers and other valuables, as a perfect security against all the depredations of fre. COMMON COUNCIL.-The Common Council held an adjourned meeting last night, and the following business was transacted.

The monthly report of the Chief of Police was received and referred to the Committee on Police. It shows the arrest of 121 persons during the month of March.

to report the same at the next meeting. The bond of the newly elected City Marshal and others were received and approved.

Adjourned to Monday evening next, when the new Board will be sworn in.

"THE SMALLEST FAVORS, &c."-Under the head of "the right spirit," the Madison Argue copies, from two of its schoes, articles denunciatory of our Supreme Court and eulogizing the defeated Usurper, Barstow. The Argus adds: The press of the State is boldly coming to the rescue of the Executive powers of government from the censorship of those who were placed upon the bench for the purposes of justice and not for the purposes of politics.

action of the Court and denounce those who sought, by Forgery and Fraud, to defeat the will interests of the State will be protected. of the People And whenever the issue has been made, the town election have spoken the same emphatic language. Bararowism is universally

repudiated.

A. K. N. Fabrication.—The Know Nothing organ in this city, in the course of an elaborate argument, yesterday, to prove that the Know Nothing and Republican parties are two very different things-a self-evident proposition-descends to the following misrepresentation:

"Lee Americans remember that Wisconsin Republicanism—if its leading presses are to be be lieved—goes cheek by jowl with Romanism The only two Republican prints of this city are the defenders of the Roman hierarchy. So far as the Sentinel is concerned, this is

silly and shallow falschood-whether wilful co not we leave the American to say. Got. WISE INSANE. -There is a rumor curren

in several Virginia papers that Gov. Wise of the State is insane. His erratic course for years pashas led many to anticipate such a conclusion in his public careet.

SLEIGH-RIDES .- On the 14th of March 118 a grand sleigh-ride, the result of rivalry between several counties as to which should turn out , the greatest number of teams, took place in northern Oblo. The scene must have been a lively one; no lass than 465 four horse teams appearing at West Richfield, from Cuyahoga, Medica, and Summit counties, conveying 6,510 persons.

Town Elections in Manitowoo Co .- Th Manitowoo Tribune says that in the selection of town officers in that county politics was preffy general ignored. Bennett, Republican, was chosen chairman of the Board of Sepervisors of Manitowoc. At Two Rivers, a strong democratic town, the independent tickes, headed by Wir. Aldrich, as chairman of the Board of Supervisore, was elected. Mr. Honey was elected chairman of the Board of Supervisors of Mischicot, W. for the Presidency : Murphy, of Manitowoo Rapids, and G. M. Bennett of Kossuth. Mr. Esslinger was elected President of Manitowoc village, D. Beadsly Treasurer

LAPAYETTE COUNTY SEAT-The people of LAfayette Co., at the town election voted by a small majority in tavor of removing the county Beat from Shullsburg to Avon, as authorized by recent act of the Legislature. The Shullsburg Herald does not think the vote decisive as to the will of the people.

Heneos River Bridge .-- A bill chartering s company to build this bridge at Albany, has passed the Senate by a vote of 18 to 12. This ques tion, therefore may be considered settled, as there is little or no doubt that it will pass the House by a very large majority.

For the Daily Sentine Swindle!

STURGEON BAY. April 2d Messre. Editors :- In the Sentinel of the 25th ult, appeared a communication from Menasha, over the signature of "Swamp," evidently from some one very near the locality of the Menasha and Office. The purport of that communication was this-that "the Land Officers at this place have received instructions from the General Land Office, in relation to Swamp Lands, allowing any one to file objections to such lands being Swamp, and upon making oath that certain portions of said lands were dry and fit for cultivation, to have the first right to enter the same at the U. S. Land office, at \$1.25 per acre;" the first man making the objections or affidarit, to have any quantity of such land, to the amount of

thousand of acres, if he chose to prerchase! Your correspondent, "Swamp" further states in semi-official modesty, that "such instructions and forms for the benefit of pre-emptors, will be furnished to the settlers upon these lands, by sending one dollar to Mr. MERKER;" he being Chief Clerk in the Menasha Land Office. As a bonu-fide settler upon a portion of thes

Lands, and deeply interested with thousands of others whose homesteads were at stake, I sent Land Office Document! I received by mail from the Land Office-what do you suppose? why Messrs, nothing more or less then an old pamph. let of "Preemption Laws", printed at the "Daily Wisconsin Book & Job Printing Office in 1848!" and pasted to the Title Page, was a "Public" Notice", by the Commissioner of the General Land Office on the subject of "Swamp and Over. flowed Lands", bearing date Dec. 21st 1855 and at the bottom of the page was found in writing, this important announcement, "Wisconsin and Michigan not included in the above regulation"!

If these "instructions" were applicable to the Menasha Land officers" why were we, old set. ders upon these Lands, not publically notified long since, instead of allowing Barstow and his crew to select our lands and file objections, before we were informed as to our duty? I know that hired agents have been for months taking minutes of these Lande, that the whole of the Northern part of the State has been explored by the Land Grabbing Gentry; but, we have had higher opinion of the Register of the Menasha Land Office, than to suppose that he would al. low his office to be prostituted to this grabbling operation and Barstowism Swindle.

If these "Instructions" were not to be applied to the Swamp Lands of Wisconsin, the Land Officers of Monasha knew it; and knowing it, swindled out of their money, for the purpose of then painted. The modern streets are wide and why are thousands of settlers allowed to be benefitting an employee in their office? It is useless to seek shelter, Barstow fashion, behind the unofficial acts of the clerk. The money was eccived and pocketed, the purchased pamphlet was sent from the M. L. Office! The idea of selling instructions, by officers who are bound resums and convicing remain some of anomal to give the public full and early information

That these Swamn Lands were attempted to be swamped in the Lunatic Asylum Swindle; that they were grabbed for by the "Forty" in the bill selling them at a few cents per acre; that a clear sweep of all the vuluable portions has been attempted this winter; we are well ware, for we have been sufficiently injured by those efforts; but we had more confidence in United States Officers than to suppose they would be "Jayne's Medical Almanac," or "Jame's celebrated Argument, vs. Cushing."

Some of these Lands are valuable; have been settled upon for years by honest and industrious settlers who feel a deep interest in having their land brought into market, and of paying a fair price therefor: and it is time the people should demand that these swindling operations cease-Other schemes are now on foot, and until we have ception worth naming, approve and sustain the ple, instead of for themselves and their personal schemes; we have but slight hopes that the best

This family quarrel is raging with redoubled fury since the exit of Forney from the Union office. This gentleman is charged with ingratitude of the deepest dye, towards the administration, in thus bolding to Buchanan, and is regarded with suspicion by the Buchanan men for staying so long in the Union office.

PRESIDENTIAL PREFERENCES .- The Beloit Jour nal thus warmly declares its preference for WIL-LIAM H. STWARD, as the Republican candidate

We are free to say that the man of our choice for this purpose is the Hon. Wm. H. The New York Canals.—The Eric Canal will hardly be opened by the 1st of May, as intimated some weeks since. It is said that there is considerable work yet to be done on the line of the canal between West Troy and Schenectady previous to the opening of navigation. ponent of the great and fundamental principles of human freedom. LABORERS WANTED .- Messrs, Graham & Scot LABORERS WANTED.—Heasts, dramain a sorth, the contractors for building the railroad between this city and Columbus, advertise for some five hundred laborers, to whom they will give steady employment during the summer. They are reliable and responsible men, and all who engage in their service will find them liberal and prompt in all of their dealings—Watertown Democrat.

The materials used too are similar, being mostly stone and brick, and brick walls with a thick coating of cement, regular, but the older portion are narrow, erooked and miserably dirty, like those of Constantinople. But throughout the whole there is an appearance of improvement, as if the long slumpering spirit of Athens was waking up and would once more make itself visible. Our distinguished Consul, Rev. Jonas King, whose politeness and urbanity to Americans is only excelled by his eminent scholarship, informed me that when he went to the city in 1829, there was scarcely the walls of a house standing. Nearly every huildtillery, and those which were not in ruins had better. He selected the best he could find, the one in which he now resides, which had neither floors, doors, nor windows, and with only a fewtile on the roof; and he and his family passed their first winter in it in this plight, with such temp-

As I have before intimated, of the remains of the splendor of ancient Athens as it was five hundred years before the Christian era, there is comparatively only enough remaining to show how great that splendor was and the lofty height from which she has fallen. The most perfect of the ruins is the Acropolis, situated in the extreme Southern end of the modern city. Like Rome, Athens occupied valleys and hills-the latter be ing generally selected for public buildings. Among others is the Acropolis before mentioned, a craggy rock rising almost perpendicularly three hundred and fifty feet high above the valley, with a smooth surface on its top, containing an area of about one thousand feet long East and West, and five hun-
